Hazardous Weather

Much of the region has seen two to four inches of rainfall over the past few days, and an additional one to three inches will likely produce more isolated flash flooding. We remind you to never drive over flooded roadways as cars can stall out or even be swept away. Turn around, don't drown!

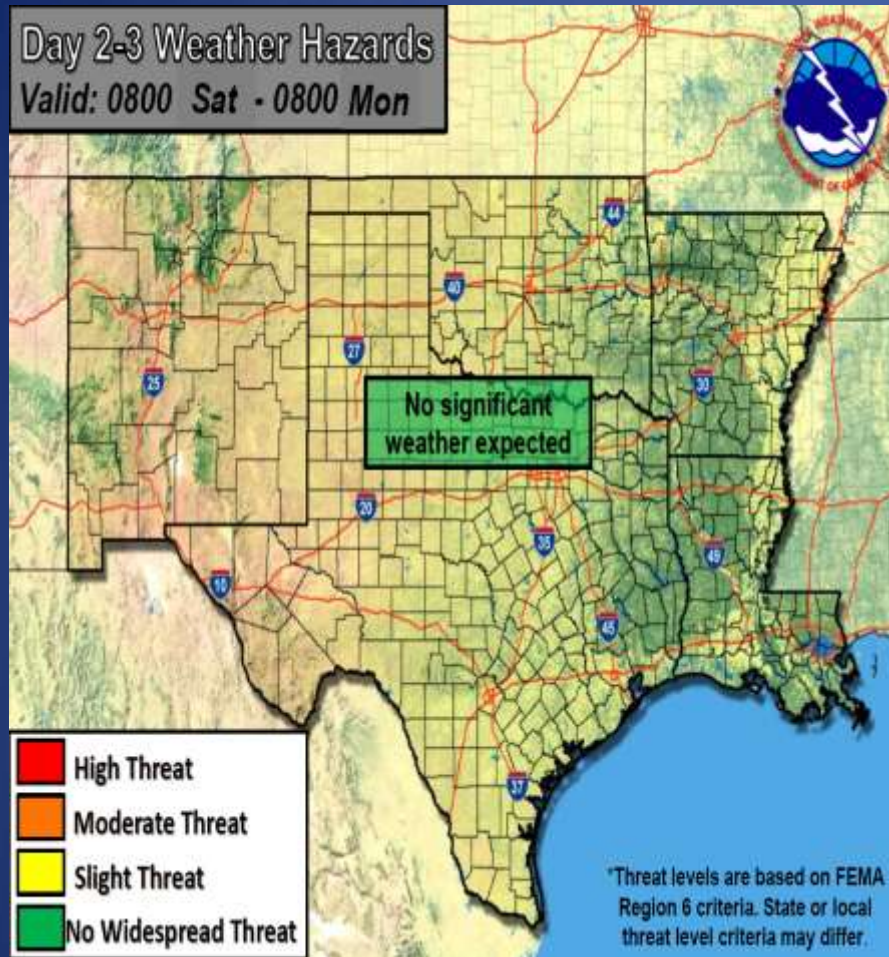

A disturbance aloft over the Borderland today will create clouds and scattered mountain thunderstorms and isolated lowland thunderstorms. High temperatures will be near normal.

Hazardous Weather

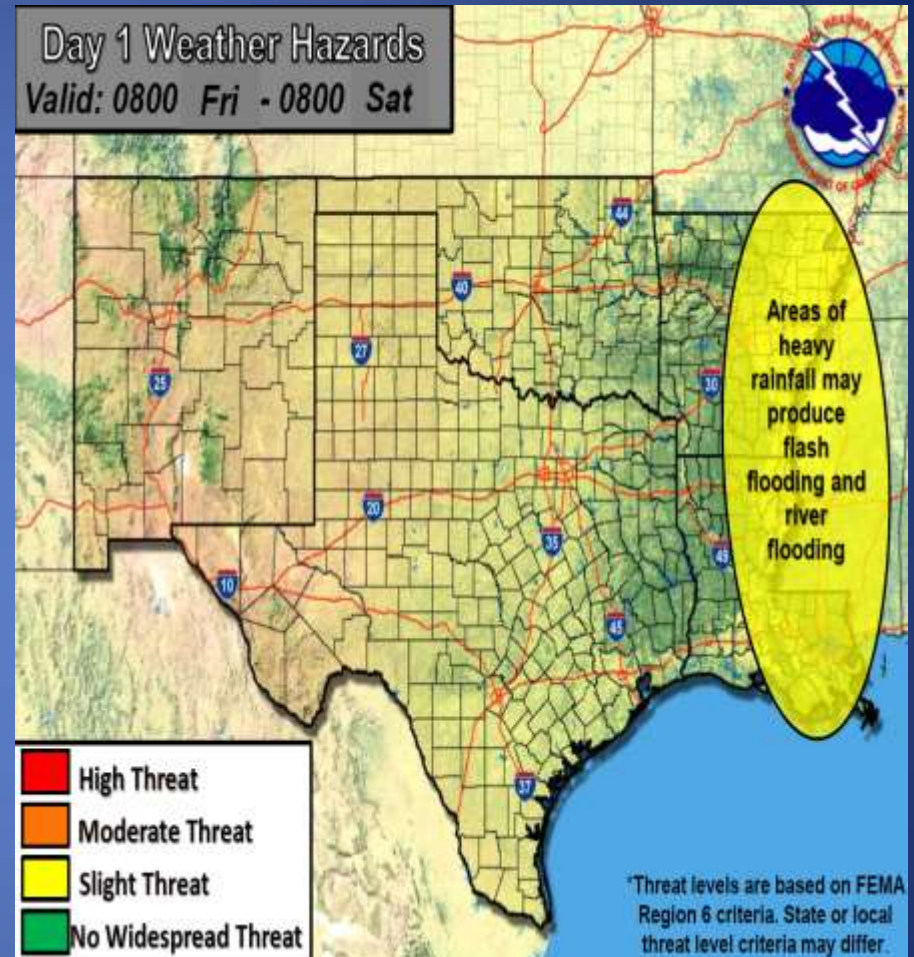

Day 2-3 Weather Hazards

Valid: 0800 Sat - 0800 Mon

Day 1 Weather Hazards

Valid: 0800 Fri - 0800 Sat
